RE: **September 24, 2003 Public Open House**
TWC Project #03-134
CC: Reah Beach, DKS Associates
Karyn Criswell, The JD White Company, Inc.
Don Hanson, Otak, Inc.
Tom Litster, Otak, Inc.
John White, The JD White Company, Inc.

On September 24, 2003, Clark County and the City of Vancouver hosted the second open house for the Section 30 Subarea Plan. The open house was held from 6:00-8:00 pm in the media center of Illahee Elementary School, located at 19401 SE 1st Street. Nine people signed in. Light refreshments were provided.

The purpose of the open house was to convey project information to attendees and to obtain input from the public on the Draft Concept Plan (Option IV) presented by the design team. Options I, II, and III from the first open house were on display, along with information on the project schedule and existing conditions of Section 30. Public comment forms were provided and one form was returned. Verbatim responses to comment form questions follow:

What do you like about the Draft Concept Plan?

Excellent plan! Protects the livability of the area for the existing homeowners, provides a good alignment for the NE 192nd/18th Street connection, and provides a better long-term solution for Harmony Sports Complex. In addition, making the aggregate available to Rinker et al. will help their operation's profitability for the next several years.

What are your suggestions for how the Draft Concept Plan could be improved?

Helping to preserve family wage jobs here in Vancouver/Clark County.

How to improve the plan—do it as quickly as possible.
